ABOUT APEX

CONNECTING PEOPLE, ASSETS AND OPPORTUNITIES.

Apex Marine Logistics Ltd is a Nigerian maritime services company headquartered in Lagos. We support shipowners, charterers, offshore contractors and marine operators with vessel management, marine assurance, regulatory compliance, chartering, offshore logistics and digital operating systems.

SAFER OPERATIONS
Disciplined marine assurance and HSE.

GREATER EFFICIENCY
Integrated support across the vessel cycle.

SUSTAINABLE GROWTH
An asset-light platform built to scale.

WHERE WE ARE HEADING

VISION, MISSION AND PURPOSE

VISION

To become a leading West African marine-services platform recognised for safe, efficient and technology-enabled maritime operations.

MISSION

To support shipowners and offshore operators with disciplined vessel management, marine assurance, regulatory readiness, chartering and logistics delivered through competent people and trusted partnerships.

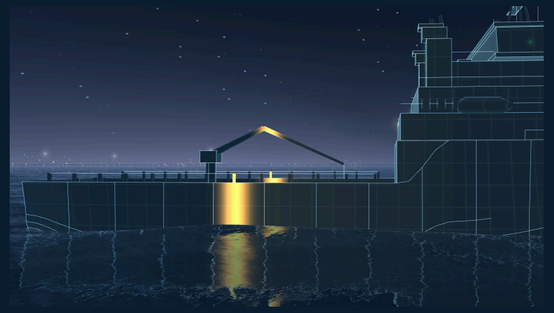

PURPOSE

To keep marine assets compliant, operational and commercially productive while raising the standard of marine service delivery from Nigeria to the wider region.

PEOPLE · PARTNERSHIPS · PERFORMANCE

THE OPERATING APPROACH

CONFIDENCE IS BUILT. NOT ASSUMED.

01

Assess the requirement

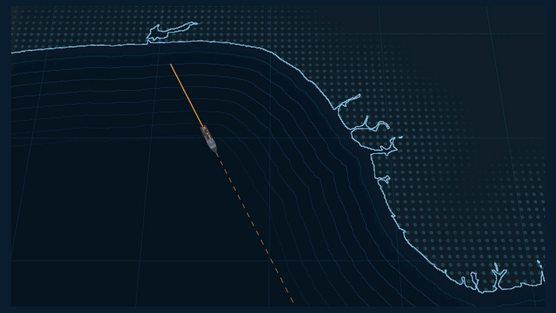

Establish the operating context, vessel requirements and assurance scope, and surface gaps early.

02

Prepare with purpose

Bring readiness information, responsibilities and documentation into a clearer mobilisation picture.

03

Deploy with clarity

Coordinate suitable vessel access, chartering and offshore logistics around the agreed operation.

04

Maintain perspective

Support vessel management and operational follow-through.

CAPABILITIES

INTEGRATED MARINE SERVICES

01 Vessel management and technical services

Superintendent support, maintenance planning, repair and dry-dock coordination.

02 Marine assurance and compliance

Inspection support, certificate tracking, regulatory and safety-system readiness.

03 Vessel chartering and partner fleet

Suitable tonnage sourced through approved vessel-owning partners.

04 Offshore and port logistics

Shorebase, port-call and project-mobilisation coordination.

05 Crew handling and logistics

Crew changes, local transfers, joining arrangements and supporting documentation.

06 Fenders, hoses and marine procurement

Pneumatic fenders, dock and ship-to-ship hoses, ship chandling, stores and technical spares.

07 Vessel registration and cabotage support

Documentation, waiver-application support, renewals and query follow-up.

08 Digital marine operations: DWPMS pilot

One agreed procedure, with defined roles, approvals and completion evidence.

09 VesselReady: mobilisation readiness pilot

One vessel against one named assignment, with a dated readiness pack.

CORE PLATFORM

VESSEL MANAGEMENT

Shore-side technical control for single vessels, special projects and growing fleets.

- Technical superintendent and shore-side management support
- Planned maintenance, repair and dry-dock coordination
- Class and statutory survey coordination
- Marine procurement and spare-parts logistics
- Vessel budgeting, OPEX monitoring and management reporting
- Crew-management support and certification control

3D illustration. Not an Apex vessel.

CORE PLATFORM

MARINE ASSURANCE AND COMPLIANCE

- Nigerian ship-registration and Cabotage documentation support
- Flag-state documentation and certificate tracking
- ISM, ISPS and Safety Management System readiness
- Pre-purchase, pre-charter and condition-review support
- Third-party specialist survey coordination where accreditation is required

Professional boundary

Apex coordinates statutory processes; certificates remain the responsibility of the competent authority or authorised organisation.

3D illustration. Not an Apex vessel.

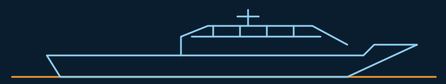

CHARTERING AND PARTNER FLEET

FLEXIBLE CAPACITY. CLEAR OWNERSHIP.

An asset-light model: suitable tonnage sourced through approved vessel-owning partners.

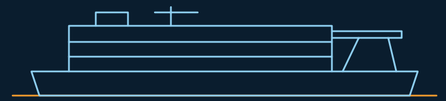

Offshore tugs and anchor-handling vessels

Fast support, intervention and crew-transfer vessels

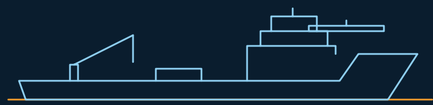

Offshore supply and platform-support vessels

Accommodation and work barges

Crane and marine-construction vessels

Utility and multi-purpose support vessels

Fleet disclosure: vessels presented in Apex marketing materials are partner-access vessels unless expressly identified in writing as Apex-owned or Apex-managed.

SHORE-SIDE SUPPORT

CREW, STORES AND PROJECT LOGISTICS

01

Crew handling and logistics

Crew-change coordination, local transfers, joining and departure arrangements, and supporting documentation. Movement plans align with the vessel schedule and agreed access requirements.

02

Fenders, hoses and procurement

Pneumatic fenders, plus dock and ship-to-ship hoses from 8 to 16 inches. Also ship chandling, provisions, vessel stores, consumables and technical spares. Specifications, quantities, delivery arrangements and acceptance requirements are agreed before supply.

03

Offshore and port logistics

Shorebase receipt, staging and dispatch coordination, local port-call support, urgent-spares movement and project mobilisation. Apex tracks the agreed handoffs through to delivery evidence.

REGISTRATION AND CABOTAGE

NIGERIA VESSEL DOCUMENTATION

Vessel registration support

Organise available vessel and ownership records, identify missing information and coordinate the agreed application support.

Cabotage documentation

Coordinate records for the intended Nigerian operation and track matters requiring confirmation from the responsible parties.

Waiver-application support

Support preparation and coordination where applicable. Eligibility and approval remain with the relevant authorities.

Renewals and queries

Track agreed renewal dates, coordinate responses and maintain a record of submissions and outstanding actions.

Authority decisions remain independent

Apex provides documentation and coordination support. We do not guarantee an approval, exemption or regulatory processing time.

Illustrative chart and route.

MOBILISATION READINESS PILOT

VESSELREADY

One vessel reviewed against one named charter, project or operational assignment, producing a dated readiness assessment.

01 Document review

Review the agreed vessel, statutory, class, crew and assignment records provided.

02 Gap register

Flag missing, expired, incomplete or unresolved items against agreed requirements.

03 Corrective-action plan

Set priorities, action owners, target dates and the evidence needed for closure.

04 Dated readiness pack

Reviewed evidence, open actions, limitations and status at the reporting date.

Readiness support, not statutory acceptance.

3D illustration. Not an Apex vessel.

DIGITAL WORK PROCEDURE MANAGEMENT SYSTEM

DWPMS SCOPED PILOT

A pilot built around one agreed work procedure, with users, responsibilities, approval steps and completion evidence defined before configuration and testing.

01 Procedure and approval control

Current-version procedures, defined responsibilities, clear decision gates.

02 Inspection and corrective actions

Structured checks, evidence capture, exception handling, action ownership.

03 Compliance visibility and reporting

Document and expiry awareness, accountable follow-up, agreed management outputs.

Agree the workflow, configure and test with the users, then review the evidence before deciding whether to expand.

DWPMS does not replace competent personnel or established management systems.

3D illustration. Not an Apex vessel.

SAME OCEAN.
A HIGHER STANDARD.

3D illustration. Not an Apex vessel.

OPERATING STANDARD

SAFETY, QUALITY AND SUSTAINABILITY

HSE and quality

- Stop-work authority and task risk assessment
- Partner-vessel and contractor prequalification
- Incident, near-miss and corrective-action management
- Emergency-response planning and controlled procedures
- Continuous improvement and management review
- Progressive alignment with ISO 9001, ISO 14001 and ISO 45001 principles

Environmental responsibility

- Pollution-prevention awareness and compliant waste handling
- Operational planning that considers fuel, emissions and environmental exposure
- Selecting competent partners that meet project and regulatory HSE requirements

LEADERSHIP AND GOVERNANCE

ACCOUNTABLE LEADERSHIP

Eni Macaulay

Managing Director and Chief Executive Officer

Leads commercial development and long-term strategy, and is responsible for building the marine-services platform, institutional partnerships and the regional growth agenda.

- Transparent, documented engagement with regulators and clients
- Zero tolerance for bribery and unofficial payments
- Conflict-of-interest disclosure and recusal
- Accurate representation of vessel ownership and availability
- Clear separation between advisory support and statutory authority
- Confidential handling of client and vessel information

Build credibility through competence, documentation, accountability and performance.

WHY APEX

SIX REASONS TO WORK WITH US

Regulatory orientation

Structured preparation and lifecycle management of vessel compliance.

Integrated service model

Compliance, technical support, chartering and logistics under one accountable platform.

Partner-fleet flexibility

Access to specialised assets without misrepresenting ownership.

Digital workflow mindset

Traceable procedures, evidence and reporting.

Specialist ecosystem

Owners, engineers, survey professionals and logistics providers.

Regional ambition

A Nigeria-first platform designed for scalable West African service delivery.

Growth direction

In the near term, deepen recurring vessel-compliance and management relationships in Nigeria, expand the approved partner-fleet network and build a recognised marine-assurance capability. Longer term, develop broader technical management, offshore logistics and regional operating capacity. Selective vessel ownership will be considered only where commercial utilisation supports the investment.
